

Project: Facility Maintenance

Location: Columbus, OH; Chandler, AZ; Rio Ranch, NM

Business Sector: Retail and Wholesale

Service: Preventative Maintenance (PM) – Critical Infrastructure

Budget: \$550,000 / Annual

Completed: Ongoing

Project Details:

TechSite serves as the single point of contact for all facilities.

Our maintenance responsibilities include:

- Management of PM scheduling and coordination of on-site services
- Provision of on-site management of services
- Provision and management of documentation related to all PM services for equipment
- Recommendations for repairs and replacement of managed infrastructure
- Ongoing maintenance of issues logs while ensuring that systems remain in good operation order
- 24-hour, 365-day emergency response contact list with guaranteed response assurance
- As needed, provide engineering analysis of field-generated equipment issues
- Receive infrastructure alarms for customer's critical infrastructure and provide emergency response
