

MANUFACTURING

(Confidential Client)

Project: Project Management Support

Location: Columbus, Ohio

Business Sector: Manufacturing

Service: Engineering – Project Management

Budget: \$550,000/year

Completed: 2023

Project Challenge:

Our client needed additional Project Management personnel to meet their growing customer base. Not interested in going through the hiring process to find qualified engineers, they chose to outsource these services to TechSite.

We were able to provide multiple technical project managers, on demand.

TechSite Solution:

TechSite was able to fulfill the customer's needs immediately with multiple, qualified technical project managers.

Our PMs serve as members of this customer's Thermal and Power products manufacturing and sales support teams.

MISSION CRITICAL

- ▶ ENGINEERING
- CONSTRUCTION
- DESIGN-BUILD
- FACILITY MANAGEMENT
- MAINTENANCE

Our purpose is to expertly plan, design, build, test, operate and maintain mission-critical space to maximize reliability, ROI and efficiency while providing the industry's highest level of customer satisfaction.
